CURRICULUM VITAE

Niki Zhong Petrakos
niki.petrakos@mail.mcgill.ca

EDUCATION AND TRAINING

DEGREES EARNED

PhD – Biostatistics — Oct. 2026
McGill University; *Montreal, QC*
Thesis: Synthetic data generation for optimal randomized controlled trial design
Supervisor: Dr. Erica E. M. Moodie

Master of Science – Biostatistics — Mar. 2022
University of Washington; *Seattle, WA*

Bachelor of Science – Mathematics — Jun. 2020
McGill University; *Montreal, QC*

RESEARCH EXPERIENCE

Postdoctoral Fellow — Oct. 2026 - Present
Chronic Viral Illness Center, Research Institute of the McGill University Health Centre, *Montréal, QC*
Research Advisor: Dr. Alexandra de Pokomandy, Professor & Physician

- Design and lead a research study investigating the real-world effectiveness of statin primary prevention of cardiovascular disease among people living with HIV in the province of Quebec
- Deliverables: knowledge translation (conference presentations, peer-reviewed publications), community engagement
- Consult as biostatistician on various research projects involving the Quebec HIV Cohort (the largest data cohort of people living with HIV in the province)
- Funded by the Canadian Trials Network (CTN+)

Research Assistant — Sep. 2022 – Sep. 2026
Chronic Viral Illness Center, Research Institute of the McGill University Health Centre, *Montréal, QC*
Research Advisor: Dr. Alexandra de Pokomandy, Professor & Physician

- Collaborated with family medicine clinicians to develop and execute principled, robust, and interpretable statistical analyses for a range of studies related to HIV, Hepatitis C, and primary care
- Produced clear, well-commented R code that is shared with the greater research team and that enables future seamless data synthesis (e.g., developed algorithm to create chronological multi-drug ART regimens using messy HIV EHR records)
- Worked independently and collaboratively with researchers of different fields, presenedt results to pharmaceutical partners

Graduate Researcher — Sep. 2021 – Mar. 2022
Public Health – Seattle & King County, *Seattle, WA*
Research Advisor: Dr. Alastair Matheson, Epidemiologist

- Collaboratively with three biostatistics master's students, planned and conducted statistical analyses in R to study the relationship between positive and negative exits from public housing and time to experiencing homelessness within one year post-exit, thus providing quantitative results to help inform public housing policy (work resulted in a published peer-reviewed article)

Undergraduate Researcher Jan. 2019 – Feb. 2020
McGill University, *Montréal, QC*
Research Advisor: Dr. Russell Steele, Professor

- To support replicable research, ran simulation studies to replicate results from published papers that studied Type I error rate control methods (multiple hypothesis testing, cumulative meta-analysis)

Research Assistant Summer 2017, Summer 2018
University of Washington Medical Center, Harborview Medical Center, *Seattle, WA*
Supervisor: Dr. Charles Landis, Principal Investigator & Physician

- Informed consent, RedCap data management for a range of liver disease studies; linked patients to Hepatitis C care by enrolling hard-to-reach patients (street-based, history of injection drug use)

PROFESSIONAL EXPERIENCE

Co-Instructor: Epidemiology and Data Analysis in Primary Care Sep. – Dec. 2026
McGill University, *Montréal, QC*
Supervisor: Dr. Alexandra de Pokomandy, Professor (FMED 505)

- Give 3-hour lectures on fundamental statistical concepts and R coding to equip students from a range of medical education backgrounds with the necessary skills to conduct biomedical and epidemiological research; design homework assignments

Teaching Assistant: Epidemiology Regression Methods Jan. – Apr. 2026
McGill University, *Montréal, QC*
Supervisor: Dr. Robert Platt, Professor (BIOS 602)

- Lead discussion sections about journal articles and state-of-the-art quantitative methods, create answer keys and grade assignments

Teaching Assistant: Quantitative Research Methods Aug. – Dec. 2024
McGill University, *Montréal, QC*
Supervisor: Dr. Nandini Dendukuri, Professor (EXMD 634)

- Supported graduate student learning by creating assignment solutions, holding weekly office hours, and explaining statistical concepts in an accessible manner

Marketing Analytics – Graduate Intern Jun. 2021 – Aug. 2022
Kaiser Permanente, *Oakland, CA*
Supervisor: Smriti Malla, Data Scientist IV

- Delivered interpretable results to business partners by quantifying care utilization impact (telehealth v. in-person) on patient retention; measured impact of B2B campaigns through weekly dashboard maintenance; worked collaboratively in a team of statisticians

Teaching Assistant Jul. 2021
UW Summer Institute in Statistical Genetics, *Seattle, WA*
Supervisor: Dr. Ken Rice, Professor

- Supported University of Washington (UW) Biostatistics instructors in the Intro to R short course by leading breakout room sessions and guiding students through practice problems

Math Instructor Jul. 2020 – Dec. 2020
Mathnasium, *Sammamish, WA*
Supervisor: Sumudini Guyer, Center Director

- Worked in groups and one-on-one with K-12 students to improve their math skills, gain confidence, and learn to love math

LEADERSHIP AND COMMUNITY SERVICE

Co-Founder Mar. 2025 – present
The Action Pact, *Montréal, QC*
- Created with two other women The Action Pact: a digital platform and civic engagement initiative to empower Canadians with tools, knowledge, and connections for informed, strategic civic action
- Developed a predictive model for the backend of a strategic voting tool, utilizing historical election data from the province of Ontario
- Led, in English and French, strategic voting experiential workshops for high school and undergraduate students at the Loran Scholarship Nationals Selection event
- Co-hosted seasonal book club events in Montréal, QC

Volunteer Graduate Student Mentor Sep. 2023 – present
Epidemiology, Biostatistics, and Occupational Health Buddy Program, McGill Scientista Mentorship Program, *Montréal, QC*
- Mentored first-year graduate and upper-year undergraduate students to help them integrate in the department and navigate graduate school and job applications

Co-Organizer May 2026
McGill University (Bio)Statistics Research and Career Day, *Montréal, QC*
- With 3 other PhD students, organized the 9th annual edition of a research and career day hosted by the biostatistics and statistics departments at McGill University
- Primary organizer for 3 keynote speakers (statistics professors across U.S. and Canada), 4 career panelists (McGill biostatistics and statistics alumni), venue and catering
- Collaborated with graduate students as well as faculty, departmental staff, venue staff, and funding agencies (secured $)

Biostatistics Program Student Representative Sep. 2023 – Sep. 2024
Epidemiology, Biostatistics, and Occupational Health Student Society, *Montréal, QC*
- As an elected council member, represented biostatistics student interests at departmental faculty meetings and informed students of decisions; organized events for biostatistics students, faculty, and staff to foster greater departmental camaraderie

Biostatistics EDI Committee Member Sep. 2020 – Sep. 2021
Biostatistics Equity, Diversity, Inclusion (EDI) Committee, *Seattle, WA*
- As a member of the Outreach and Pipeline Building Subcommittee, collaborated with community organizations to support disadvantaged high school students in their college endeavors

President May 2019 – Apr. 2020
Vice President – Fundraising Sep. 2018 – Apr. 2019
Vice President – Social Media Sep. 2017 – Apr. 2018
Alegria Contemporary Ballet Company, *Montréal, QC*
- Produced shows, organized weekly rehearsals, cultivated a welcoming dance environment; made ballet more accessible to the Montreal community via affordable classes and discounted tickets
- Organized fundraisers to ensure Alegria's financial security and ability to produce performances
- Advertised events and fundraisers, designed social media posts, cover art, and posters, and created promotional videos

*Co-first authors

PRESENTATIONS

Oral Presentations

Epidemiology, Biostatistics and Occupational Health Student Seminar, *Montréal, QC* — Sep. 2026

- Gave an hour-long presentation about two first-author papers from doctoral research work to a graduate student audience

56es Journées de Statistique de la Société Française de Statistique, *Marseille, France* — Jun. 2025

- Presented first-author paper about frameworks to generate complex synthetic trial data to an audience of statisticians

(Bio)Statistics Research Day, *Montréal, QC* — May 2024

- Presented original research in synthetic data generation for clinical trials to an audience of biostatistics/statistics students and faculty

(Bio)Statistics Research Day, *Montréal, QC* — May 2023

- Presented culminating work from master's degree to an audience of biostatistics and statistics students and faculty

Capstone Presentation, *Seattle, WA* — Mar. 2022

- Presented master's capstone project alongside group members to an audience of biostatistics and statistics students and faculty

Poster Presentations

Scientific Days Réseau Santé Numérique – Poster Competition, *Quebec City, QC* — Mar. 2026

- Presented doctoral research about methods to account for missing data in the generation of realistic and complex synthetic trial data

Statistical Society of Canada Annual Meeting – Poster Competition, *Ottawa, ON* — May 2023

- Presented scientific questions, methods, and results for case study competition, optimizing patient flow in emergency departments

HONORS AND AWARDS

First Prize PhD Oral Presentation ($125) – Canadian Statistics Student Conference	May 2026
Second Place Poster Competition ($150) – Réseau Santé Numérique	Mar. 2026
Graduate Mobility Award ($7,426) – McGill University	Jan. – Jun. 2025
Mitacs Globalink Research Award for Research Abroad ($6,000) – Mitacs	Jan. – Jun. 2025
Research Internship Funding Award ($9,000) – Centre de Recherches Mathématiques	May 2024
Student Presentation Award, Second Place ($75) – 7th Annual (Bio)Statistics Research Day	Feb. – Apr. 2024
Graduate Mobility Award ($4,400) – McGill University	Feb. – Apr. 2024
Research Internship Funding Award ($7,500) – Centre de Recherches Mathématiques	May 2023
Honorable Mention Poster Competition ($125) – Statistical Society of Canada Annual Meeting	May 2022
School of Public Health Excellence Award - Outstanding Master's Student, Biostatistics – University of Washington	Sep. 2016
James McGill Scholarship ($5,000) – McGill University
